WORK EXPERIENCE

Software Developer **February 2015 – Present**
ThroughTek Co., Ltd. (Taipei)
- Build and scale IoT Device Management back-end using NodeJS and Mongo. System allows bulk operations on many devices at a time, firmware update and enrichment of the device with meta-data and status information.
- Lead migration process of a cloud-connected surveillance camera application, from Django to a Chrome App built with AngularJS.

Senior Front-End Developer **May 2013 – February 2015**
Toro Development Ltd. (Taipei - Barcelona)
- Built and maintained the UI of an easy-to-use SPA for end-users to browse, download and share coupons, promotions and widgets using EmberJS.
- Built and maintained the UI of a NFC wallet management system and its widget's and coupon's life cycle.

Full-Stack Developer **December 2011 – December 2013**
AIESEC Hong Kong (Hong Kong)
- Built an online e-commerce system that allows users to make 'micro' online payments on the fly with Apache Struts.

Software Developer **April 2009 – December 2011**
VoxWeb Voice Solutions (Barcelona)
- Developed a wide range of voice solutions based in Loquendo (Nuance) speech technology and Asterisk.

Software Developer **July 2007 – July 2008**
Netquest (Barcelona)
- Developed a J2EE marketing tool for creation and distribution of online surveys.
